

PASO A PASO DE LA CREACION DE LA MAQUINA Y SU USO

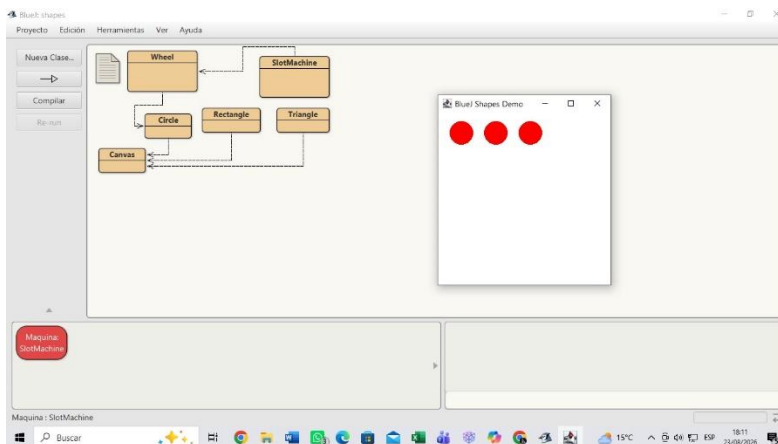

1. Compilar y crear maquina

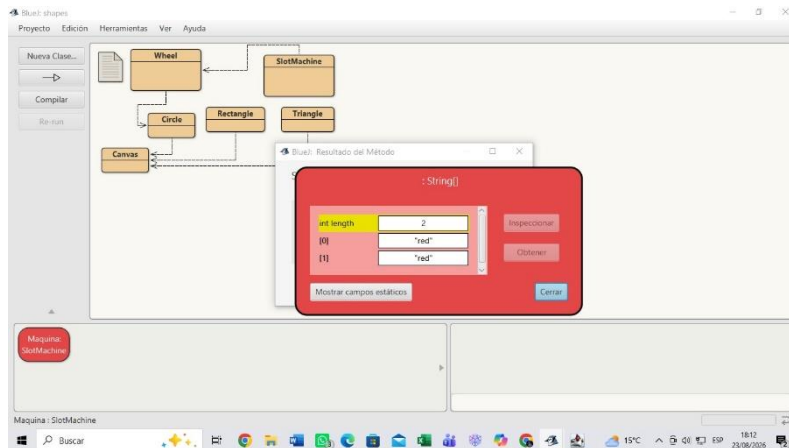

2. Agregar los colores

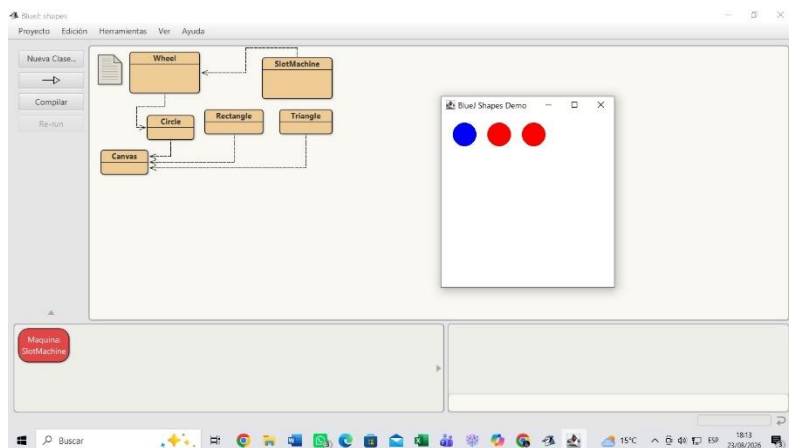

3. agregar ruedas

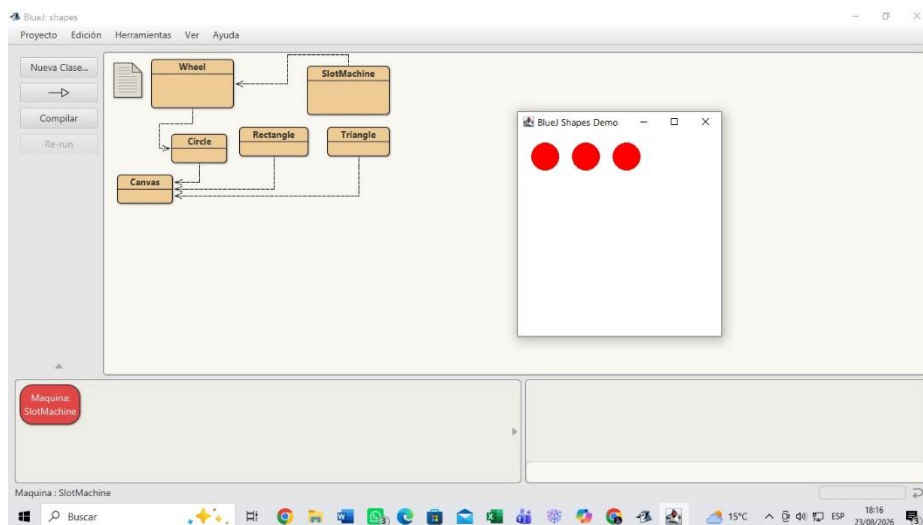

4. Mostrar el color de cada rueda

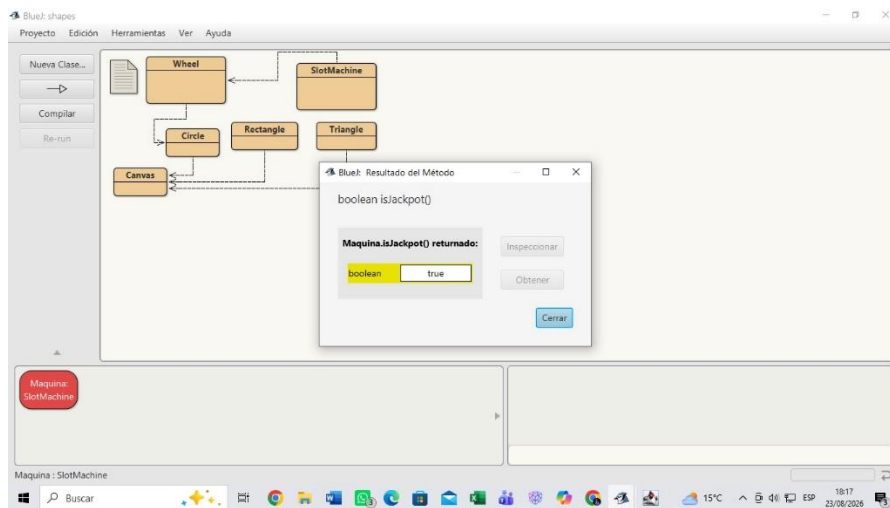

5. cambio de color

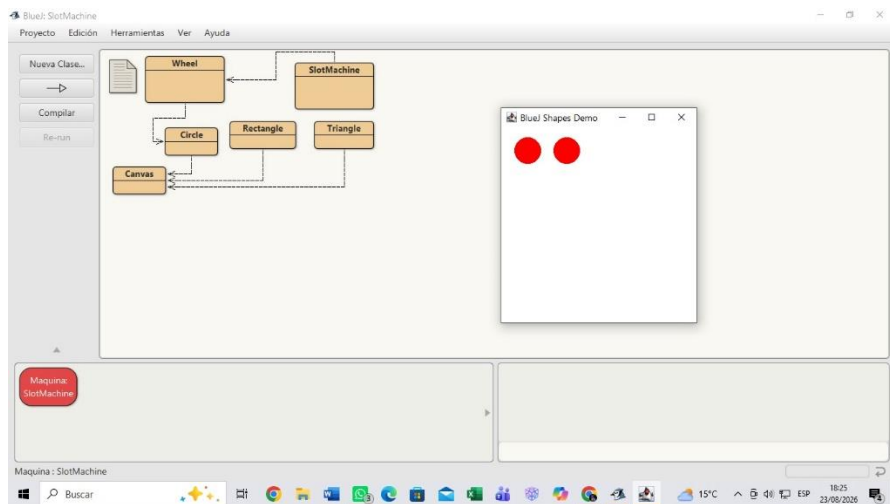

6. forzar los 3 a rojo

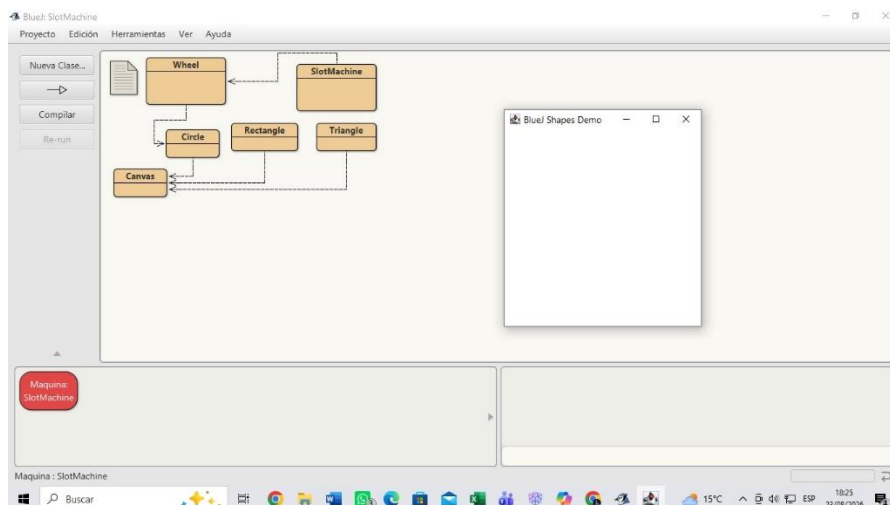

7. Al ser las 3 rojas es correcto por eso es verdadero

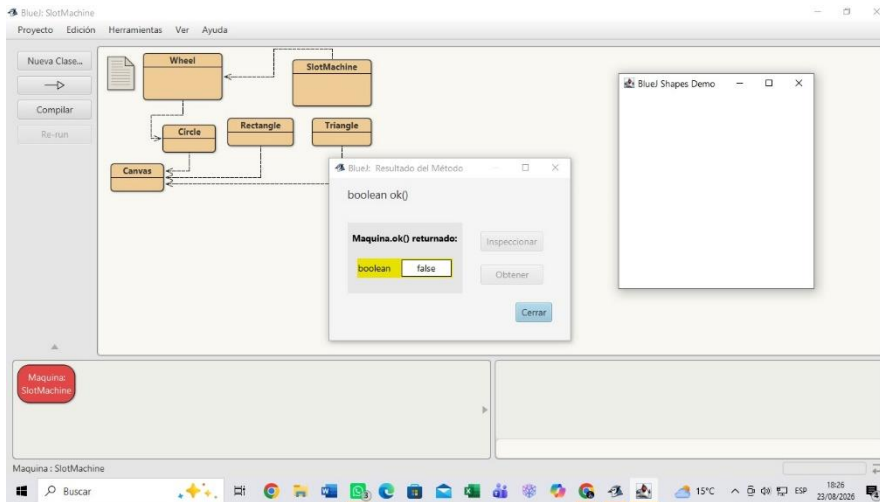

8. Borrarnos un círculo

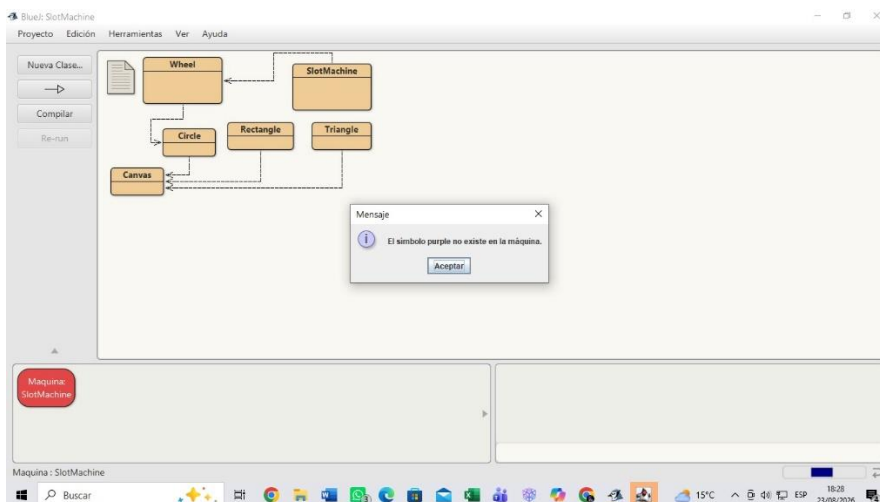

9. Lo volvimos invisible

10. Escribimos purpura y después revisamos pero sale false ya que esta invisible y no hay ventanita de error

11. Ahora lo hacemos visible y sale el error

12. Cerramos el canvas
